EHRET

Main frames for aluminium window shutters
Perfect for renovation projects and new buildings

EHRET installation frames connect shutters to the façade. In the area of the wall opening, the frame supports the wall reveal on at least three sides. In doing so, aluminium frames not only have important technical functions but also make for a design highlight on the façade as they come in a variety of colours.

Colours and decorative finishes
To give the frame and centre an individual character, you can pick from over 4000 different colours and decorative finishes. Standardised colour systems (RAL, NCS, VSR) allow the shutters to be colour-matched perfectly to other elements of the façade and vice versa.

CE EN 13659   GSB MASTER INTERNATIONAL Approved Coated Aluminium ★★   QUALICOAT   QUALIDECO   OCEAN LINE PLUS

The tailor-made main frames fit into every window reveal.
They are suitable for new and existing buildings alike. The pre-mounted brackets and hinges are aligned with each other ex factory and ensure easy, fast and secure installation on site.
